

Missing pages 1-4

CURRENTLY ADVERTISED/CATALOGED PARTS/SERVICES APPLICABLE TO 61-67 ECONOLINES

ARRANGED IN FORD PARTS GROUP CODE SEQUENCE

1. IMAGE Identifier of one of sometimes several Ford Truck Parts Catalog Illustrations displaying the listed Econoline applicable line item. If an asterisk follows the "P" number it means that other (listed or not) illustrations also show the part/assembly

2. FORD PART NUMBER Those whose prefix starts with C1U thru C7U, identify parts/assemblies that were originally designed for use on 61-67 Econolines, and which may have also been used by other Marques/model years. When a Part Number Prefix ends in a two digit number (e.g., 89) it identifies a Body/Soft Trim part, rather than a Chassis part. A suffix starting with "-S" identifies a Standard Utility Hardware Item which lacks any Ford Part Number Prefix.

3. YEAR. Econoline model year applications. An asterisk follows the Econoline model year applications shown whenever an interchange item is also used by with other (mainly) Ford marquees and/or model years.

4. DESCRIPTION. Only words that are direct quotes from the line item's descriptive text found in Ford Parts Catalogs are capitalized. Interchange symbols **a**=Ford Full Size Car **b**=full size bus (but not Econolines), **d**=Falcon car, **f**=F100 Pickup, **g**=Comet, **o**=Fairlane, **p**=Parcel Delivery (Step Van), **s**=Thunderbird, **t**=any and/or all Ford trucks (can include Econolines, Rancheros, Broncos, etc., **u**=Econoline, **U**=66-72 Bronco, **x**=Ranchero, **z**=Mustang.

5. PRICES The most recently advertised prices are shown nearest the description and all are: (a) subject to change without notice, (b) less shipping-handling-applicable taxes, (c) rounded off to the nearest whole dollar, (d) for only one item unless a numeric quantity and an "at" symbol (e.g., 2@) precede the dollar sign.

6. TYPE ITEM SYMBOLS: • =NOS, ■ =NORS, □ =NEW AFTERMARKET, ~ =REBUILT. Outright price is shown unless a "+" core charge symbol and a dollar amount (if known) immediately follows the vendor id code, ^ =USED, * =RESTORATION/REPAIR SERVICES, ! =SPEED EQUIPMENT, ◇ =CUSTOM FABRICATION SERVICES. Vendor Identification Codes are indexed on the SEQ mailing label page, and are shown in all lower case letters whenever a Ford Part Numbered Item that Ford Parts Catalogs identifies as being applicable to 61-67 Econolines, isn't also specifically advertised by the identified vendor as being applicable to 61-67 Econolines. When a vendor's ordering characters differ from the displayed Ford Parts Catalog Number, parenthesis, i.e., (), immediately follow the vendor's id code, and if space permits the vendor's known ordering characters are displayed within the parentheses.

CHASSIS PARTS & ASSEMBLIES

61-67 ECONOLINE NEWBIE REFERENCE INFORMATION PACKAGE

This basic 61-67 Econoline information package is provided any fellow and/or potential, first generation Econoline owner who has provided me their "snail mail" postal address. During March, June, September, and December, I also publish a free 12 page low tech periodical titled *Something Econoline Quarterly* (SEQ). 61-67 Econoline owners recorded as EconO meet attendees (even if their Econolines weren't at the meet) receive an unsolicited copy of the next SEQ edition that contains photos & attendance records of the EconO meet they attended. The SEQ issues published during the remainder of the calendar year are only distributed to requesting owners who have once sent me all three lines of the stamped characters from their VIN tag. Upon request, in this era of stolen identities, personal street addresses can be deleted from the distribution listing printed in each SEQ issue,

Since I'm mechanically challenged enough to be vastly overqualified for the position of "Mr. Really Bad Wrench," any super technical mechanical questions that I receive are most often redirected to more mechanically competent owners, such as: previous publisher of the EconO Newsletter Jay Long (CA @ 510-352-4367, or polecat1010@hotmail.com), Blue Oval Engineering's Eugene Phillips (CA @ 626-798-9996), Annual Mid West EconO Fest Invitational Picnic sponsor Don Renner (WI @ 262-537-4916), long time first generation Econoline owner and modifier Fred Carello (RI at fredcarello@yahoo.com), and the EconO USA Used Part's, Tim Brogan (KY @ 859-441-9577, or econousaparts@aol.com). Current 61-67 Econoline web sites are: www.oldeconolines@yahoogroups.com, www.econolinesrus@yahoo.com, and www.ford-econoline.com. My phone number is 619-435-6784, and my email address is don@mootech.net. Please don't get me in trouble with the IRS by sending me unsolicited money, stamps, or SASE's (most of the material I provide won't fit within SASE envelopes anyway).
